

ALI MOHAMED AHMED

Data Analyst | Junior Data Scientist

Alymohamedahmed1234@gmail.com | +201061977260 | Cairo, Egypt

[linkedin](#) | [github](#) | [portfolio](#)

PROFILE

Results-driven Data Analyst with a strong foundation in Python, SQL, Power BI, and Excel, complemented by hands-on experience in machine learning and deep learning. Proficient in the end-to-end data analysis lifecycle — from data wrangling, cleaning, and exploratory data analysis (EDA) to statistical modeling, predictive analytics, and interactive dashboard development. Passionate about transforming complex datasets into clear, actionable insights that drive data-driven decision-making.

EDUCATION

Menofia University – Faculty of Artificial Intelligence
Bachelor of Science in Artificial Intelligence (3rd Year)

- Relevant Coursework: Machine Learning, Deep Learning, NLP, Big Data Analytics, Data Science, Reinforcement Learning, Databases
- Cumulative GPA: In Progress

Shibin El Kom, Egypt
Oct 2022 – Present

WORK EXPERIENCE & INTERNSHIPS

GB Corp
Data Analytics Intern

- Performed exploratory data analysis (EDA) and data visualization on real-world business datasets using Python, Excel, and Power BI.
- Built predictive models and applied statistical analysis techniques including regression and classification to support business decisions.
- Applied DAX formulas and Power Query for advanced data transformation, cleansing, and KPI reporting.
- Designed and delivered interactive dashboards that communicated key insights to stakeholders, reducing reporting time by streamlining data pipelines

Cairo, Egypt
Jul 2025 – Aug 2025

DEPI (Digital Egypt Pioneers Initiative)
AI & Machine Learning Trainee

- Developed machine learning and deep learning solutions in Python using Scikit-learn, TensorFlow, and Keras on structured and unstructured datasets.
- Applied data preprocessing, feature engineering, dimensionality reduction (PCA), and model evaluation (cross-validation, ROC-AUC, F1-score).
- Collaborated in a team environment to design and deploy AI-powered applications with real-world impact.

Remote / Cairo, Egypt
Jul 2025 – Jan 2026

TECHNICAL SKILLS

Programming & Querying: Python (Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn), SQL (Joins, Subqueries, CTEs, Window Functions), C++

BI & Visualization: Power BI (DAX, Power Query, Data Modeling), Excel (Pivot Tables, VLOOKUP, Power Query, Conditional Formatting), Tableau (Basic)

Data Analysis: Exploratory Data Analysis (EDA), Data Wrangling, Data Cleaning, Statistical Analysis, Feature Engineering, Predictive Modeling

Machine Learning: Supervised & Unsupervised Learning, Classification, Regression, Clustering, NLP, Computer Vision

Databases: SQL Server, Relational Databases, Database Design & Querying

Tools & Collaboration: VS Code, Jupyter Notebook, Cursor AI, Git / GitHub

PROJECTS

Demographic Insights – Egypt | *Population Analytics Dashboard* | *Power BI*

- Designed an interactive Power BI dashboard using official CAPMAS population data, enabling drill-down analysis by governorate, age group, and gender.
- Performed data modeling, DAX measure creation, and demographic trend analysis to surface actionable insights on population distribution and growth patterns.
- Implemented data cleaning and transformation pipelines in Power Query to ensure accuracy and consistency of the dataset.

AI Wellness Guardian | *DEPI × EYOUTH Initiative*

- Developed an AI-powered wellness analytics platform integrating fitness, sleep, nutrition, and mood tracking with ML-driven personalized health insights.
- Implemented NLP-based sentiment and emotion analysis module for user feedback and mood monitoring.
- Applied Computer Vision techniques for real-time exercise monitoring and posture classification.

SOFT SKILLS

Analytical Thinking • Data Storytelling • Problem Solving • Attention to Detail • Decision-Making • Team Collaboration • Communication • Reporting • Eagerness to Learn

LANGUAGES

Arabic (Native) | **English** (Professional Working Proficiency) | **German** (Basic Conversational)
